

Tree Sharing Program Information

Thank you for being apart of the Tree Sharing Program through The City of Grapevine. Please allow The City two-weeks after your initial purchase. You will receive confirmation from The City or Unique Landscaping.

Once an email confirmation is received, please pick up stakes at The Municipal Service Center, 501 Shady Brook Drive, Grapevine, TX. Stakes will be located outside the front entrance.

After confirmation the following will occur:

- Approximately 1 week before planting, Unique Landscaping will submit the ticket to have your utilities marked through TX811. This important process is to make sure that when planting the tree we do not hit any major line in your yard.
- Once utilities have been marked, you can place your stakes in the ground of where you wish to have your tree planted.
- Leave access to your yard on the day of planting. No one needs to be home on the day of planting.

For any additional questions or concerns please contact through email
